# GATEWAY TO THE GALAXY

As NASA prepares to return to the moon for the first time since 1972, Knights are leading logistics for Gateway — a new lunar orbiting outpost that is crucial to the new era of space exploration. With UCF alumni's expertise, Gateway will allow NASA to develop a sustainable presence on the moon and pave the way for future Mars missions. And this recent project builds on the mission UCF was founded on in

***“It was my UCF education — along with many other opportunities provided to me by NASA — that has allowed me to pursue a career beyond my wildest dreams.”***

— Jenny Lyons, Gateway Deep Space Logistics deputy manager

## header, if any

Deep Space Logistics Deputy Manager Jenny Lyons credits her studies at UCF for helping her develop the skills needed to manage a team of scientists, engineering and business experts to develop Gateway's innovative technology. UCF has long been the No. 1 supplier of aerospace and defense talent to the industries, and is dedicated to training the next generation of experts needed to advance deep space exploration.
